2. **AB 613 (Low): Professions and Vocations: Regulatory Fees**

This is a two-year bill that would specify that voluntary acts of sodomy, oral copulation, and sexual penetration are not considered acts of sexual assault that must be reported by a mandated reporter as child abuse if there are no indicators of abuse, unless it is between a person age 21 or older and a minor under age 16.

At its March 6, 2020 meeting, the Board took a “support” position on this bill.

Status: This bill was signed by the Governor (Chapter 180, Statutes of 2020).

5. AB 2112 (Ramos): Suicide Prevention

7. AB 2253 (Low): Professional Licensure

Various mental health professionals working in certain state settings are allowed a waiver from licensure requirements for a specified period of time if they are working toward gaining “qualifying experience” toward licensure. 9. SB 803 (Beall): Mental Health Services: Peer Support Specialist Certification

The bill would authorize a county, or an agency that represents a county, to develop a peer support specialist certification program and certification fee schedule, both of which would be subject to DHCS approval. The bill would require the department to seek any federal waivers it deems necessary to establish a demonstration or pilot project for the provision of peer support services in a county that agrees to participate in and fund the project. The demonstration or pilot project shall include peer support specialists as a Medi-Cal provider type.

Instead, this bill requires health plans and insurers to cover all medically necessary treatment of mental health and substance use disorders under the same terms and conditions applied to other medical conditions.

At its August 14, 2020 meeting, the Board took a “support” position on a previous version of the bill. However, separate from its position, the Board decided to request that trainees either be removed from the bill’s definition of “health care provider”, or it be clarified that trainees are under the supervision of a licensed person.

Staff had negotiated some amendments with the author’s office, but due to the shortened nature of this year’s Legislative session, those amendments were ultimately unable to be made. The author’s office recommended that the Board instead pursue the change in an omnibus bill next year.
