Subject: Discussion of Sunsetting Statutory Provisions

Background

The Board's sunset date is January 1, 2026. This means that the Legislature, via its Business and Professions Committees, will conduct a sunset review of the Board in early 2025, and will run legislation to adjust the Board's sunset review date and make any statutory amendments it deems necessary.

The Board has two key provisions in statute that are also set to sunset on January 1, 2026. When developing these statutes, the Board chose to give each a sunset date that aligned with the Board's sunset date, so that any needed adjustments to those newer statutes could be done via the sunset bill if needed (for example, to address any unintended consequences that might arise, or make any needed clarifications).

The two sunsetting provisions are as follows:

1. Allowance of supervision via videoconferencing in all settings
2. Temporary Practice Allowance

Allowance of Supervision via Videoconferencing in all Settings

In 2022, the Board sponsored [AB 1758](#) (Aguiar-Curry, Chapter 204, Statutes of 2022) to allow supervision to take place via videoconferencing in all settings. Previously, supervision had only been permitted via videoconferencing for supervisees in exempt settings. (An exempt setting is a government entity, school, college, university, or an institution that is both nonprofit and charitable.)

AB 1758 requires the supervisor to conduct an assessment of each supervisee within 60 days in order to determine the appropriateness of the supervisee for supervision via videoconferencing. Supervision via videoconferencing must not be utilized if the supervisor determines it is not appropriate.

The law change was prompted by the COVID-19 State of Emergency. During that time, law waivers were provided so that supervisees and supervisors in all settings could maintain social distancing. However, as time went on, many supervisees and supervisors found that supervision via videoconferencing provided many unexpected benefits. Some of these benefits included increased access to supervision for pre-licensees in rural or underserved areas, the ability to maintain a supervisor-supervisee relationship if one party moves a further distance away, and the ability for supervisors and supervisees with disabilities or health concerns to continue their work more easily.

However, there were also concerns that videoconferencing could affect the quality of supervision. The COVID-19 State of Emergency caused many to begin to utilize supervision via videoconferencing quickly, and there was limited research at the time regarding its effectiveness. For that reason, the Board chose to place a sunset date on the allowance of supervision via videoconferencing, so that it could be reassessed when more information was available.

Staff was able to find some more recent publicly available research articles on the topic, as follows:

- Robertson, H. C., & Lowell, R. (2021). Counselor Educator, Supervisor, and Practitioner Perspectives on Distance Counseling and Telemental Health Training and Practice. *Journal of Counselor Preparation and Supervision*, 14(3). Retrieved from <https://digitalcommons.sacredheart.edu/jcps/vol14/iss3/3/>

In review of the above publications, staff noted themes of acknowledging both benefits as well as challenges with telesupervision. The publications also tended to note the need for more research, better quality and consistent training, and for ethical guidance on telesupervision.

Temporary Practice Allowance

In 2023, the Board sponsored [AB 232](#) (Aguiar-Curry, Chapter 640, Statutes of 2023). The bill provides a 30-day temporary practice allowance to qualifying therapists licensed

in another U.S. jurisdiction to continue treating existing clients who are visiting California or relocating to California.

Because this was a brand new allowance, the Board decided to include a sunset date of January 1, 2026 so that the allowance could be reevaluated as part of the Board's sunset review process.

The program has only been in effect since January 1, 2024. Since that date, the Board has issued approximately 5 temporary practice allowances per week , for a total of 53 between January 1st and mid-March.

Staff recommends extending the sunset date of this law so that more data and feedback can be gathered.

Recommendation

Conduct an open discussion regarding the sunset dates for both the allowance of supervision via videoconferencing in all settings, and the temporary practice allowance.
