OPEN SESSION

XI. Call to Order, Establishment of Quorum, and Introductions

Meeting called to order at 9:02 a.m. Roll was called, and a quorum was established.

XII. Board Chair Report

a. Board Member Activities

Board members and Board staff have begun the first stage of the Strategic Planning. The Board is currently collecting information and feedback.

Steve Sodergren, Cassandra Kearney and Christina Wong participated in a virtual outreach event at California State University Chico and discussed the licensure procedure with the students.

XIII. Public Comment for Items Not on the Agenda

Curt Widhalm: Implementation to the end of face-to-face supervision requirement. With very short notices and eventual end of the current waiver, there is a potential workforce issue to be in compliance with the law. The workforce must either abandon their clients until they are able to return not their physical locations, where they can be with their supervisors or be seen illegally for supervision. Requests that the BBS provide more lead time to the workforce.

XIV. Suggestions for Future Agenda Items

None

XV. Consent Calendar

- a. Possible Approval of the November 4-5, 2020 Board Meeting Minutes
- b. Possible Approval of the March 4-5, 2021 Board Meeting Minutes

MOTION: Approve the November 4-5, 2020 and March 4-5, 2021 Board Meeting Minutes.

- MST – Licensing Unit (4 vacancies)
- MST – Registration, Examination & Cashiering Unit
- Office Technician – Administration Unit

f. Strategic Plan Update

The Department of Consumer Affairs' (DCA) SOLID Planning Solutions (SOLID) developed an online survey that was distributed to stakeholders and staff and conducted interviews with Board members and management. The survey closed on April 23, 2021.

SOLID will be compiling and analyzing the data to produce an Environmental Scan outlining BBS's strengths, weaknesses, opportunities, and threats. The information will be used during the future Board strategic planning session.

The following dates have been recommended for the planning session:

- June 24, 2021
- June 8, 2021

XVII. Election of Board Officers

Sabina Knight: Members whose terms end on June 1st have been extended by the Governor's order through November 2021. Members whose terms have been extended are eligible for nominations.

MOTION: Nominate Max Disposti as Chair and Christina Wong as Vice Chair.

Brown moved. Sovec seconded.

XVIII. Telehealth Committee Update

The Telehealth Committee held its latest meeting on March 26th. The following topics were discussed:

- Telehealth statutes for associates and trainees,
- Allowance of supervision via videoconferencing for pre-licensees,
- Allowable telehealth settings for associates and trainees,
- Comparison of laws of other states that pertain to temporary practice across state lines.

The next meeting is June 25th.

XIX. Licensing Committee Update

The Licensing Committee held its first meeting on March 26th. Committee members and stakeholders discussed potential future topics that the Committee should focus on:

- Six-year limit on registration numbers,
- Allowable six-year age of experience hours,
- Whether or not exam attempts should be limited,
- Allowable age of a passing California Law and Ethics exam score,
- 12-hour California law and ethics course requirement for renewing registrants with a failing California law and ethics exam score.

The next meeting is June 25th.

XX. Policy and Advocacy Committee Recommendations

a. Recommendation #1: Oppose Unless Amended on Assembly Bill 29 (Cooper) State Bodies: Meetings

Current law establishes the Bagley-Keene Open Meeting Act (Bagley-Keene Act), and state bodies are subject to adhere to it. AB 29 proposes a change to the Bagley-Keene Act to require that state bodies provide meeting writings or materials to the public on the same day they are provided the state body's members, or at least 72 hours before the meeting, whichever is earlier.

AB 29

1. Requires the meeting notice posted 10 days in advance of a meeting must also include all writings or materials provided to members of the state body by the staff of a state agency, board or commission, by or another state body member, that are connected to a matter to be discussed or considered at the meeting. These must be posted on the state body's website and provided to any person who requests them in writing, on the same day they are provided to members of the state body, or at least 72 hours in advance of the meeting, whichever is earlier.
2. Prohibits a state body from distributing or discussing writings and materials or taking action on an item to which they pertain, at a meeting of the state body unless the requirements listed above have been met.

Staff recommends that the Board request two amendments, similar to what was included in previously proposed legislation (AB 2028):

- An amendment stating that the requirement does not apply to writings/materials prepared for a matter to be discussed in a closed session of the state body; and
- An amendment stating that if the writings/materials on an agenda for discussion are related to current legislation, the state body can satisfy the posting requirements by posting these writings/materials as they become available after the ordinarily prescribed time periods

MOTION: Oppose AB 29 unless amended to reflect the two requested amendments provided by staff.

Strack moved. Wong seconded.

b. Recommendation #2: Oppose Unless Amended on Assembly Bill 107 (Salas) Licensure: Veterans and Military Spouses

AB 107 would require all boards within DCA to issue temporary licenses to military spouses, if they meet certain specified requirements.

Current Board Process

The Board does not have a temporary license status, nor does it have licensing reciprocity with any other states; however, the Board has a “licensure by credential” pathway to licensure, which is a streamlined process for qualifying licensees in other states who have been licensed for at least two years (SB 679).

The Board is already required the Board to expedite the licensing process for an applicant who is married to or in a domestic partnership with an active member of the U.S. military who is assigned to active duty in California, if the applicant holds a current license in the same profession in another state.

Bypassing the Licensure Process

This bill does not require the following:

- That the licensing requirements in the other state in which the person holds a license be substantially equivalent to the requirements in California; or
- That the applicant passes the required Board administered examinations.

Continuity of Care

This bill creates a temporary license that is valid for a 12-month period, or until the regular license is issued, whichever occurs first. A consumer who seeks mental health services often seeks treatment for an extended period of time. A practitioner whose temporary license expires could disrupt the continuity of care for patients.

Staffing and BreEZe Impact

The Board does not currently have a temporary license status. A temporary license status would need to be created in the BreEZe system, which could result in a fiscal impact.

Adding a new license type would increase staff workload, creating a need for new staff.

LEPs

SB 679 did not establish a licensure by credential option for LEPs, because not many other states license them. The only other state that has LEP licensure is Massachusetts.

MOTION: Oppose AB 107 unless amended to remove BBS from the requirements of the bill.

Wong moved. Disposti seconded.

c. Recommendation #3: Support Assembly Bill 462 (Carrillo) Licensed Professional Clinical Counselor Act

AB 462

1. Removes the requirement that applicants for a Licensed Professional Clinical Counselor (LPCC) license must obtain at least 150 hours of clinical supervised experience in a hospital or community mental health setting.
2. Removes the requirement that LPCCs who wish to assess or treat couples and families complete certain additional education, supervised experience, and continuing education related to marriage and family therapy.

Intent

AB 462 is sponsored by the California Association for Licensed Professional Clinical Counselors (CALPCC). CALPCC notes that the requirement to complete 150 hours in a community mental health setting or hospital is outside the standard practice for post-graduate experience requirements for the LPCC license nationally. In addition, to get these hours, an associate professional clinical counselor (APCC) often needs to interrupt or leave their employment to find a short-term job at one of these sites, and that such a placement is difficult to find because of adversity to hiring short-term employees. Therefore, the requirement is a barrier to licensure.

CALPCC notes that California is the only state that prohibits LPCCs from assessing and treating couples and families without additional specific training.

Current Challenges

Board staff notes the following challenges encountered by requiring additional education and experience for LPCCs to treat couples and families, and 150 hours of experience in a hospital or community mental health setting.

- Definition of community mental health setting causes confusion
- Difficulty finding hours in a community mental health setting – sites are reluctant to hire associates because they will not stay long-term.
- Letter to verify that the couple and families requirements are met – it's difficult to verify that LPCCs are completing required continuing education except through an audit.
- Supervision issues – LPCCs are not permitted to supervise AMFTs unless they meet additional requirements to treat couples and families.

This is a disincentive to hire an LPCC if they are not able to supervise all types of associates within an agency.

- Reluctance to hire LPCCs - The Board has received reports about agencies' reluctance to hire LPCCs because of confusion about whether they meet the requirements to treat couples and families.
- License portability issues - The fact that all other states permit LPCCs to treat couples and families can cause confusion and a barrier to licensure for some LPCC applicants who are licensed in other states.

Additional Amendments

If the bill is successful, several additional subsections in LMFT and LPCC statute related to the deleted requirements would become obsolete. Staff recommends requesting the following amendments to be included in the bill:

- Strike BPC §§4980.03(g)(2): This subparagraph requires LPCC supervisors of pre-licensed LMFT applicants to meet the additional education, experience, and continuing education requirements to treat couples and families.
- Strike 4999.12(h)(2): This subparagraph requires LPCC supervisors of pre-licensed LMFT applicants, or LPCCs or APCCs seeking experience to treat couples and families to meet the additional education, experience, and continuing education requirements.
- Strike 4999.12(o): This subdivision defines a "community mental health setting" for purposes of the 150-hour clinical experience requirement in BPC §4999.46(c)(4).
- Strike 4999.60(b): This subdivision permits out-of-state applicants who qualify for licensure by credential to treat couples and families under certain circumstances.

The sponsor indicated they will make an amendment to Family Code §3110.5(c)(5). This section will be amended to delete the reference to the additional requirements for LPCCs to treat couples and families.

MOTION: Support AB 462 as introduced on Feb 8, 2021 and support the discussed amendments proposed by CALPCC (provided as Attachment C).

Sovec moved. Wong seconded.

Public Comment

Kenneth Edwards, CALPCC: Expressed his gratitude to the Board for its support.

Curt Widhalm: Speaking on behalf of various stakeholders - no issue with the removal of the community mental health work requirements. On behalf of Ben Caldwell - no position on AB 462, but noted that marriage and family therapists in statute and CSWs in accreditation standards must have training in couples and families, while PCCs have no required training or experience as considerations of working with these populations. On behalf of MFT students – Why are we investing in an MFT degree if PCCs don't have the same education requirements and work requirements for us to work with these populations?

Rebecca Gonzales, National Association of Social Workers California Chapter (NASW-CA): No official position on AB 462.

Dr. Leah Brew: The purpose of the Board is public safety. The additional requirements on LPCCs have not necessarily improved public protection and this is evidenced: social workers, psychologists in California, and the other 49 states and D.C. – all of which do not have the requirement. Answer to MFT students' question: the MFT degree is a deeper emphasis on working with couples and families. It's not that they're not qualified to do so; some of those differences are based on theoretical orientation, a different way of working with clients.

Jennifer Alley, California Association of Marriage and Family Therapists (CAMFT): CAMFT is neutral on AB 462.

**d. Recommendation #4: Support if Amended on Assembly Bill 646 (Low)
Department of Consumer Affairs: Boards: Expunged Convictions**

AB 646

1. Requires that a DCA board must update their required website posting for a person whose license was revoked because they were convicted of a crime, upon receiving from them a certified copy of an expungement order pursuant to Penal Code §1203.4 for the underlying offense, as follows:
 - a. If the person reapplies for licensure or has been relicensed, the board must post notification of the expungement order and its date on the website.
 - b. If the person is not currently licensed and does not reapply for licensure, the board must remove the initial posting on its website that the person's license was revoked, and information previously posted regarding arrests, charges, and convictions.
2. The website posting must be updated within 90 days of receiving the expungement order, unless prohibited by another law.
3. Authorizes a DCA board to charge a reasonable fee to cover associated costs.

Previous Legislation

The Board considered a similar version of this bill last year (AB 1616). The Board took a "support if amended position" on AB 1616 and expressed concerns about the requirement to remove the revoked posting for an individual who is not currently licensed. The concerns were as follows:

- a. **Exempt Settings:** An individual whose license is revoked may choose to continue practicing in an exempt setting. By law, a license is not required to practice the Board's regulated professions in these settings. If a revoked license posting is removed from the website, these settings will have no way of knowing that one of their unlicensed practitioners has a revoked license.
- b. **Practice in Another State:** An individual whose license is revoked may decide to obtain a license to practice in another state. If the revoked posting is removed from the Board's website, the other state will be unaware of this when making their decision to issue a license.
- c. **Similar Practice:** When the Board revokes a license, the former licensee will sometimes choose to practice in a field related to the Board's professions but that does not require a license. The fact that a license was revoked (and potentially subsequently the conviction was

expunged) is important for the consumer to know so that they can make an informed decision.

MOTION: Support AB 646 if amended on BPC section 493.5(a)(2) to require notification of expungement order and corresponding date to be posted on the website, instead of requiring deletion of a license revocation from the website if there is an expungement and the person does not reapply.

Wong moved. Ranasinghe seconded.
