

California Health Workforce Research Data Center

Ross Lallian, Health Workforce Development Research and
Evaluation Chief, Department of Health Care Access and Information

Purpose of Presentation

- Research Data Center (RDC) overview
- RDC data sources
- Workforce data use cases
- Gather your feedback

RDC: Background

- Assembly Bill 133 created the Health Workforce RDC.
 - Central source of health care workforce and education data in the state.
- HCAI will produce an annual report to the legislature.
 - Identify education and employment trends.
 - Report on supply and demand and gaps in the educational pipeline.
 - Inform state policy to address workforce issues.
 - Describe workforce program outcomes and effectiveness.

RDC: Data Sources

- Administrative data:
 - Health and Safety Code 128051 gives HCAI authority.
 - Allows for improvements in data quality and response rates.
- Survey data
- Public data

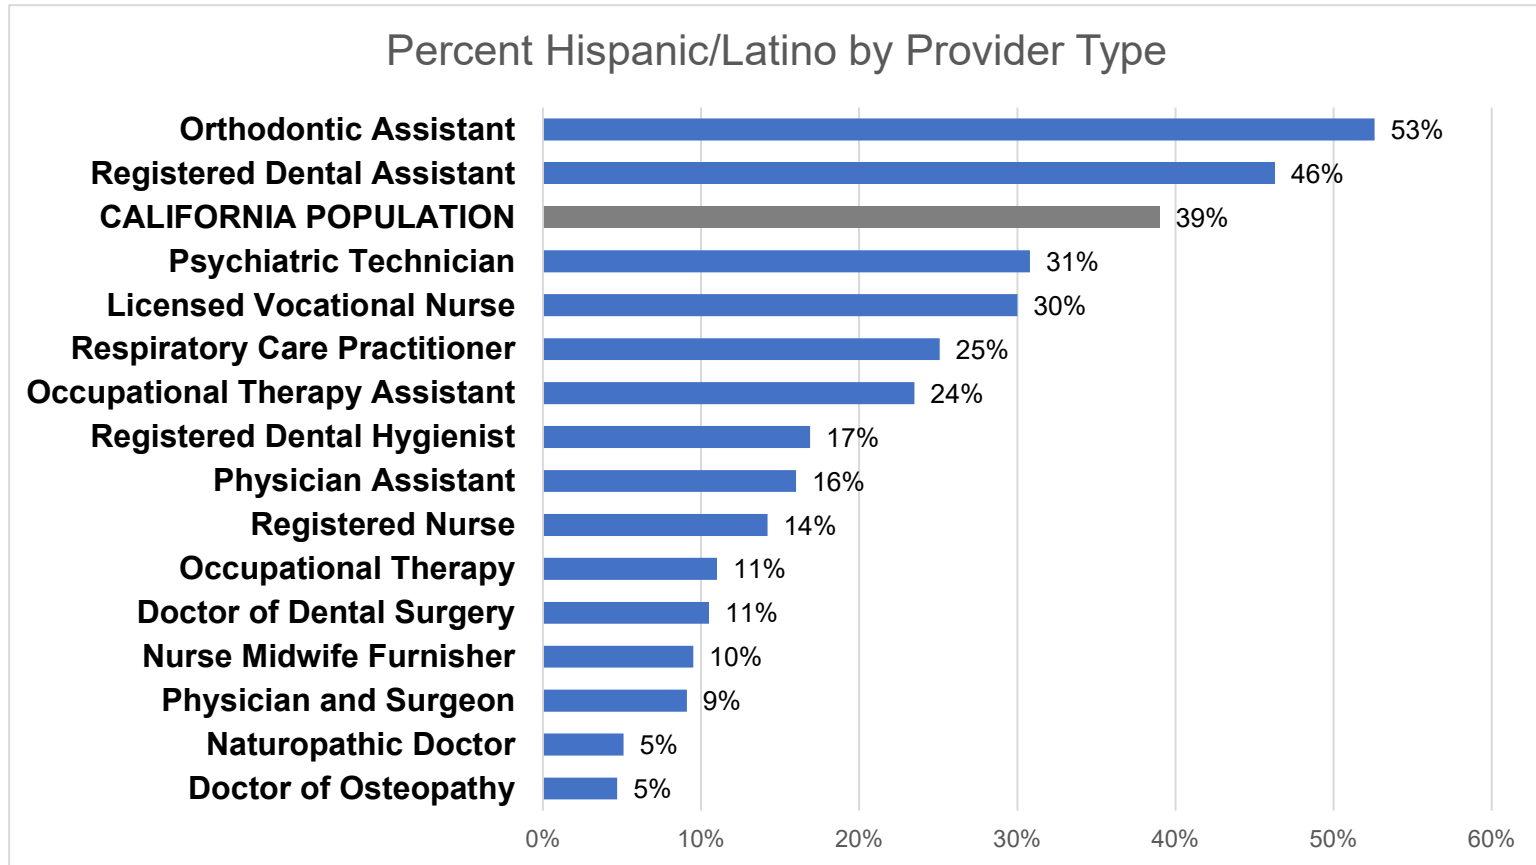

RDC: Administrative Data Collection

- Data from:
 - Employment Development Department (EDD).
 - State licensing boards.
 - State higher education entities.
- Data includes:
 - Supply and demand for workers.
 - Geographical distribution of workers.
 - Diversity of the workforce.
 - Educational capacity to produce workers.

RDC: State Licensing Board Data

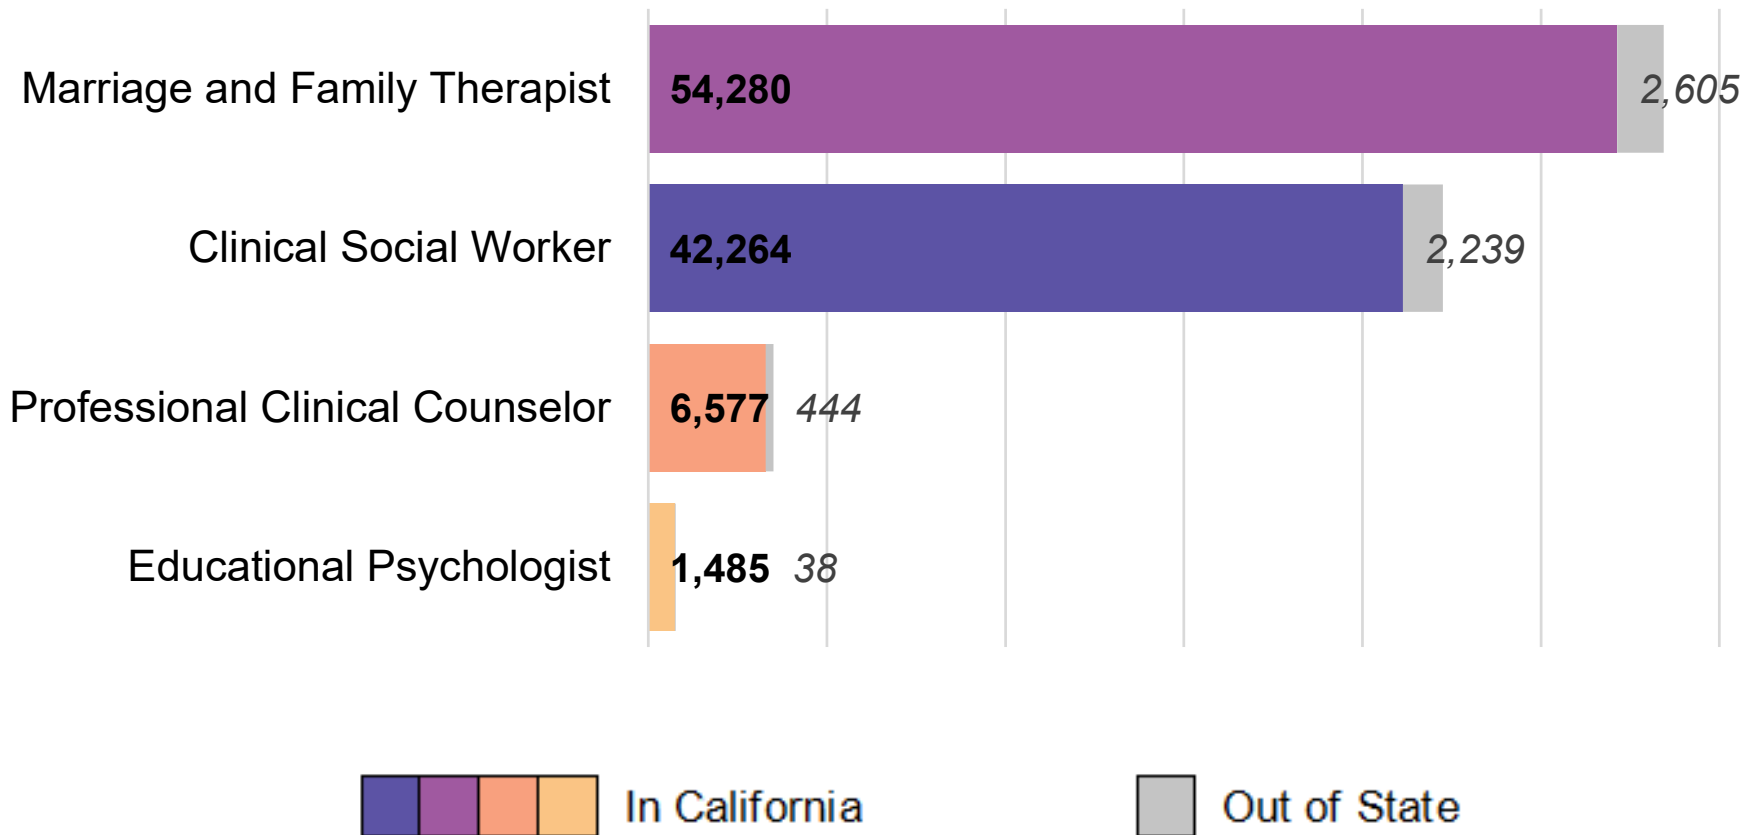

- Data collection integrated into the license renewal process.
- Collects a standard set of information from every licensee every two years:
 - Practice location
 - Hours spent in direct patient care
 - Specialty
 - Race/Ethnicity
 - Languages spoken
 - Retirement plans
 - Education background

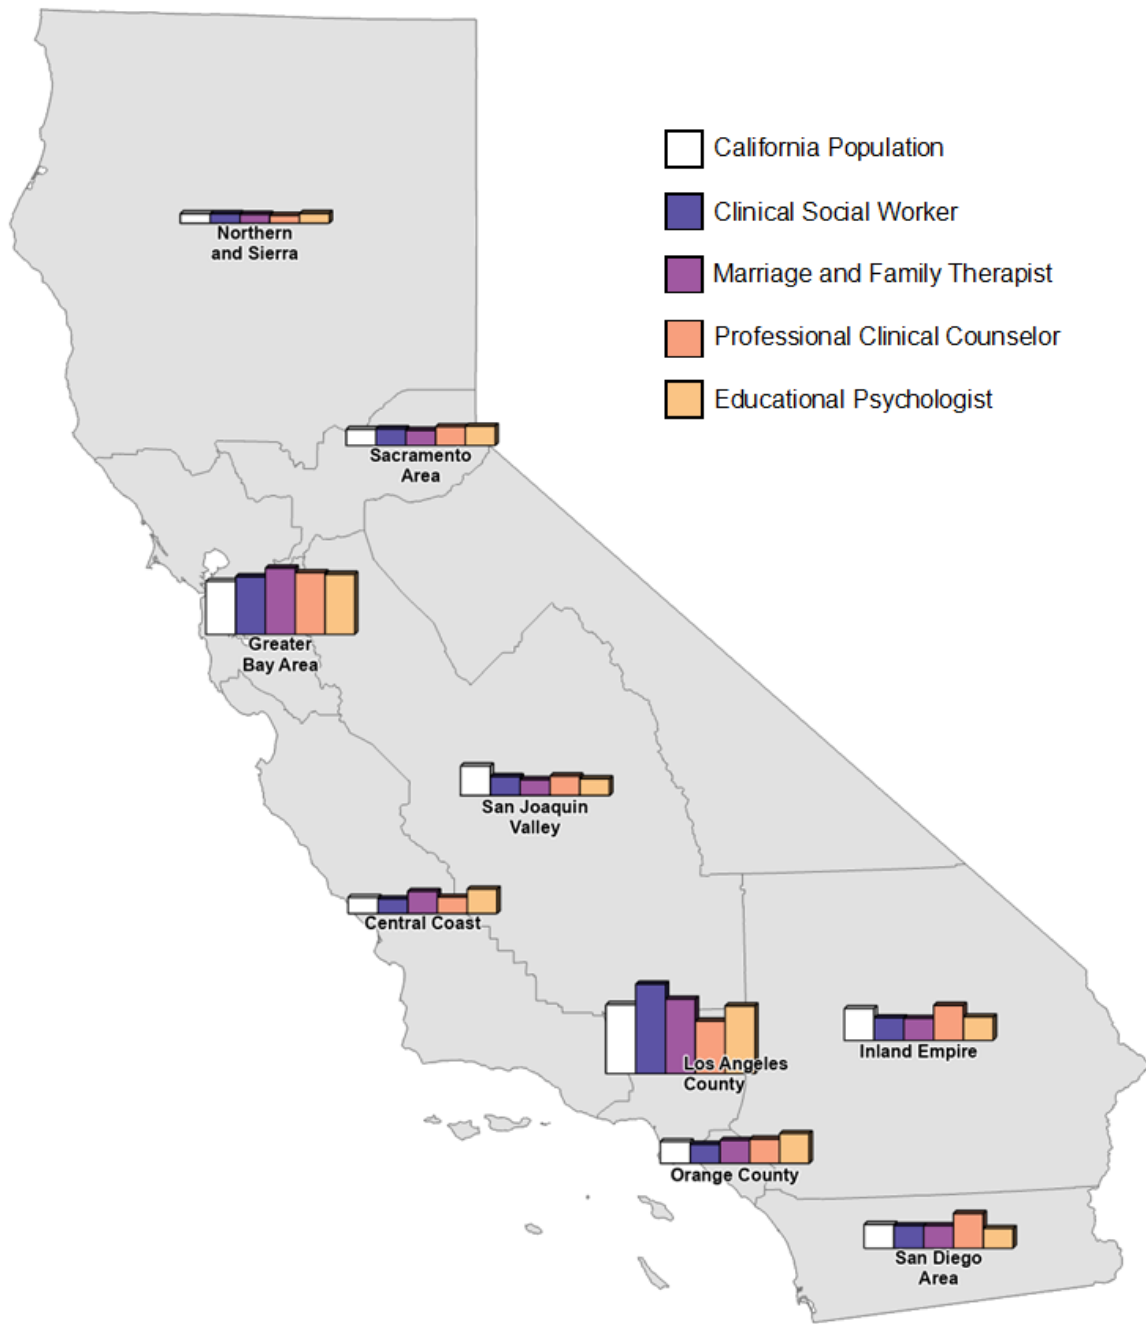

Licensure Data Example

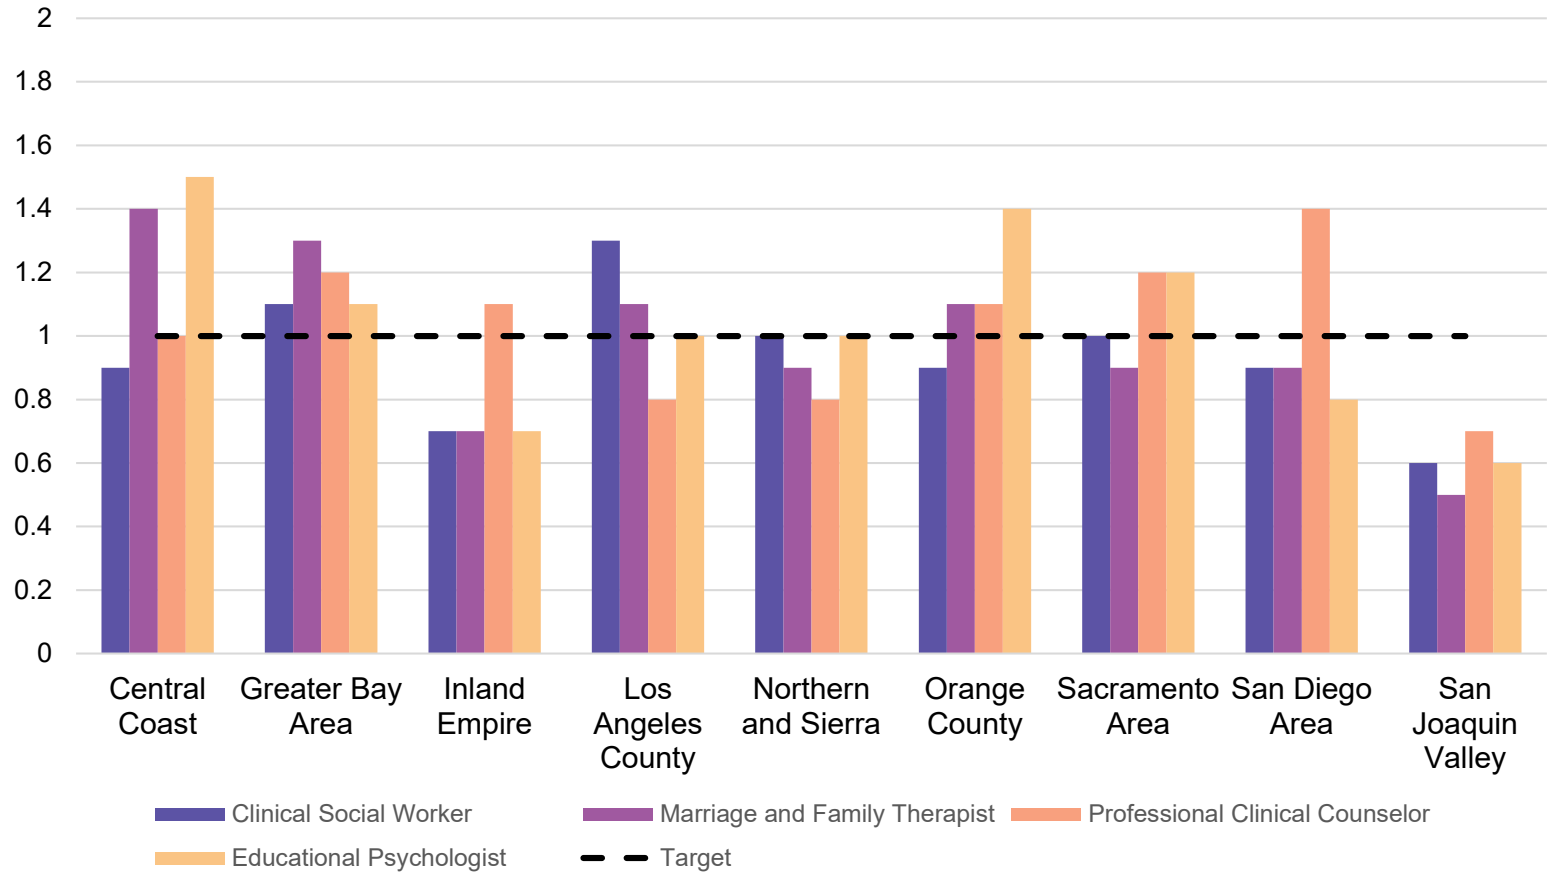

*Responses from existing Clearinghouse database for licenses active as of June 1, 2021.

Active Licenses: Behavioral Health

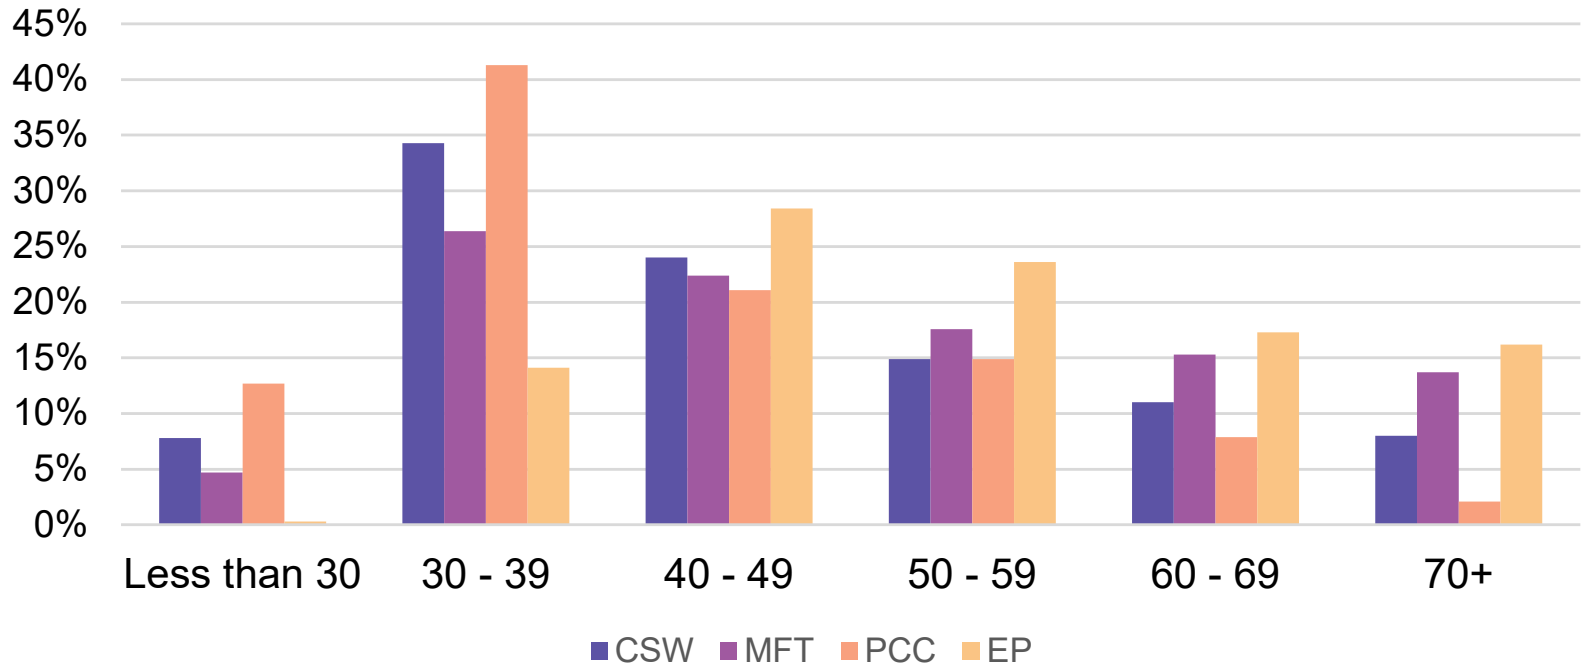

Distribution Index: Behavioral Health

New and Exiting Licenses by Year

Age Distribution: Behavioral Health

Median Age (Years) by Region

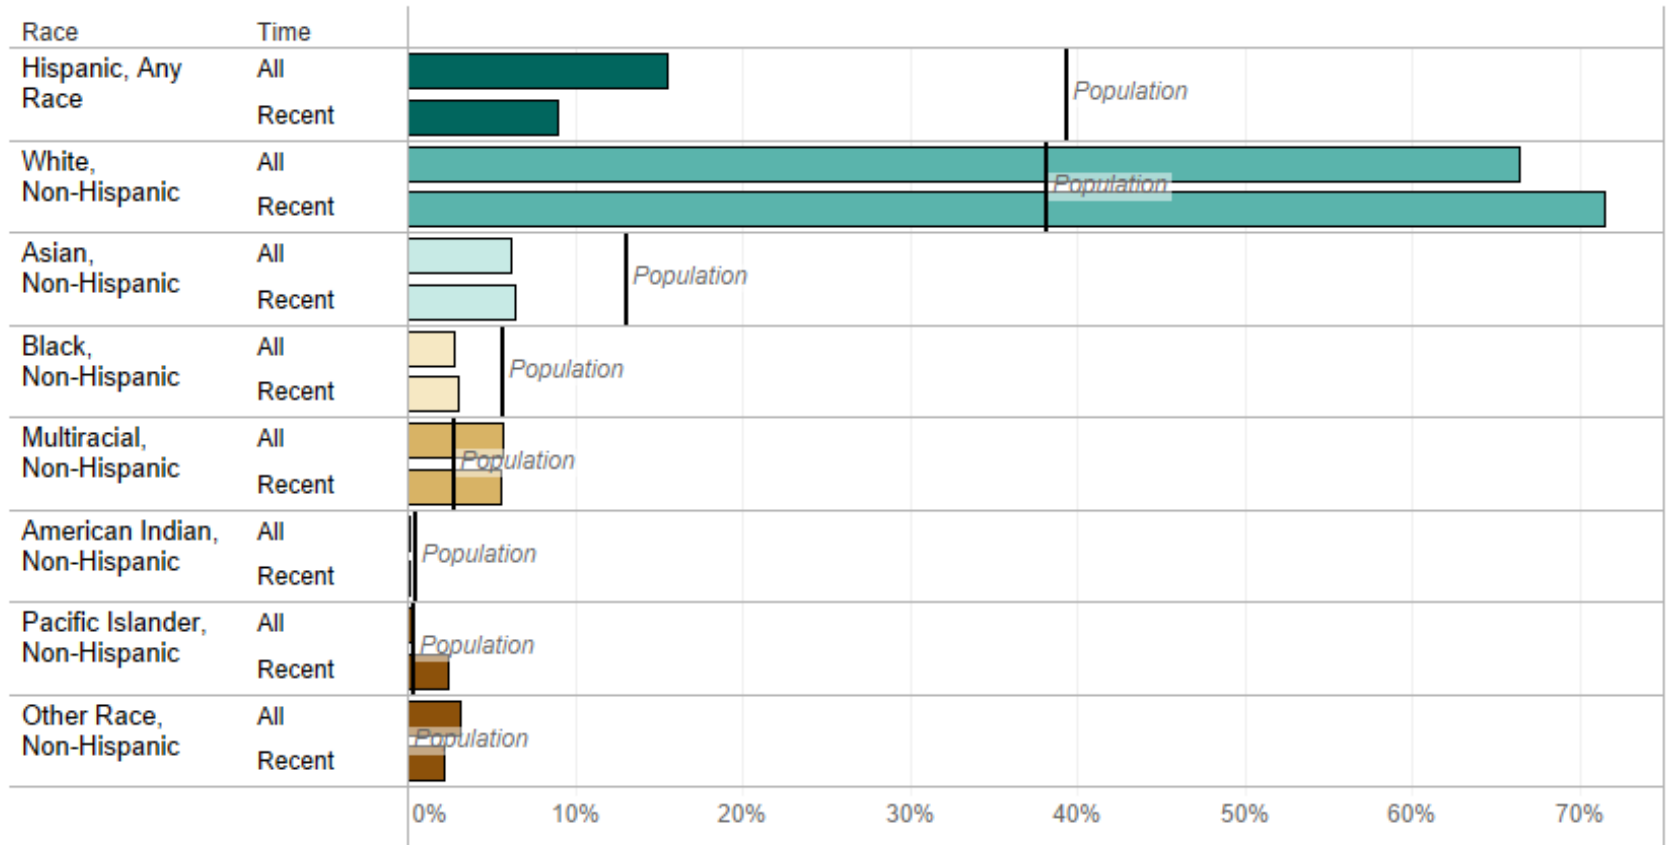

ACSW & LCSW by Race/Ethnicity Region(s): All

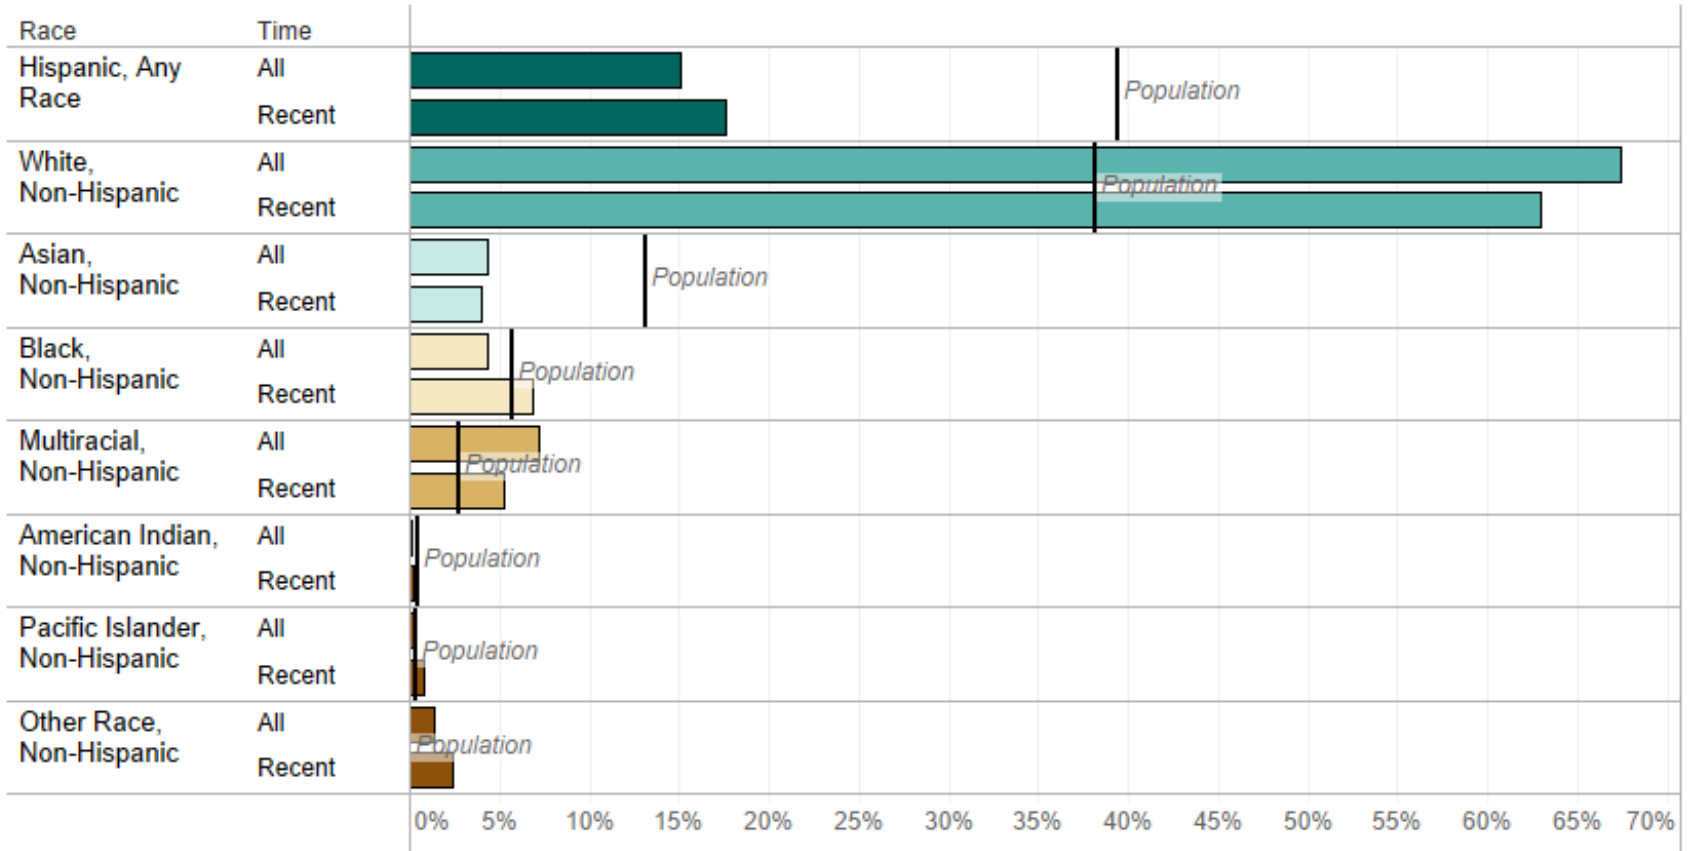

AMFT & LMFT by Race/Ethnicity Region(s): All

LPCC by Race/Ethnicity Region(s): All

LEP by Race/Ethnicity Region(s): All

Workforce by Hospital Utilization Data

- Integration with hospital utilization data creates new research opportunities.
 - *Example:* Potential relationships between hospital burden and provider shortages

Emergency Department Volume and Capacity, 2019

Health-Related Topics Substance Abuse	Facility (All)	System (All)	
County (All)	Hospital Ownership (All)	Licensed Bed Size (All)	
Urban/Rural Designation (All)	Teaching Designation (All)	Health Professional Shortage Area (HPSA) - Primary Care (All)	Health Professional Shortage Area (HPSA) - Mental Health Yes

Q&A

- How can data about workforce supply and demand help the Board achieve its goals?
- How can we continue to engage you and your constituents on the RDC?
