SCHEDULING INFORMATION

Date Scheduled: _____

Name of Scheduler: _____

Date of Exam: _____

Time of Exam: _____

Test Site Location: _____

PURPOSE

This handbook serves as your notice of eligibility and is designed to provide you with general information regarding the California Licensed Educational Psychologist (LEP) examination processes and content.

EXAMINATIONS BY PSI

The State has contracted with PSI to conduct its examination program. PSI provides examinations through a network of computer examination centers in California and ten additional nationwide sites.

All questions regarding the scheduling and administration of examinations should be directed to PSI.

PSI licensure:certification

3210 E Tropicana

Las Vegas, NV 89121

(877) 392-6422 • Fax (702) 932-2666 ** TTY (800) 735-2929

www.psiexams.com

All other questions about examinations should be directed to the BBS.

www.bbs.ca.gov

EXAMINATION SCHEDULING PROCEDURES

Once you have been approved by BBS, you are responsible for contacting PSI to schedule an appointment to take the examination. You may do so via the Internet at www.psiexams.com, or schedule over the telephone at (877) 392-6422.

- **FIRST TIME EXAMINEES:** Examination eligibility expires, and an application is deemed abandoned, if the applicant fails to sit for examination within one year after being notified of eligibility.
- **RE-EXAMINATION APPLICANTS:** Examination eligibility expires and an applicant becomes ineligible to sit for examination when an applicant fails any written examination and does not retake the examination within one year from the date of that failure.

In most California testing centers, testing does not take place on the following major holidays:

Memorial Day	Closed May 24-26, 2014
Independence Day	Closed July 4, 2014
Labor Day	Closed August 30 - September 1, 2014
Thanksgiving	Closed November 27-30, 2014
Christmas	Closed December 25, 2014
New Years	Closed January 1, 2015
Martin Luther King	Closed January 19, 2015

INTERNET SCHEDULING

You may schedule your test by completing the online Test Registration Form. The Test Registration Form is available at PSI's website, www.psiexams.com. You may schedule for a test via the Internet 24 hours a day.

1. Complete the registration form online and submit your information to PSI via the Internet.
2. Upon completion of the online registration form, you will be given the available dates for scheduling your test.
3. You will need to choose a date to complete your registration.
4. Upon successful registration, you will receive a traceable confirmation number.

TELEPHONE SCHEDULING

PSI has two scheduling methods available if you wish to schedule by telephone. First, call PSI at (877) 392-6422, 24 hours a day and schedule using the Automated Registration System. Second, if you wish to contact a live operator, use this same telephone number to contact PSI registrars Monday through Friday between 4:30 am and 7:00 pm and Saturday, between 8:00 am and 2:00 pm, Pacific Time, to schedule your appointment for the test. Scheduling services are also available via our Telecommunications Device for the Deaf (TDD) by calling 800.735.2929.

CANCELING AN EXAMINATION APPOINTMENT

You may cancel and reschedule an examination appointment without forfeiting your fee *if your cancellation notice is received two (2) days prior to the scheduled examination date*. For example, for a 9:00 a.m. Monday appointment, the cancellation notice would need to be received before 9:00 a.m. on the previous Saturday. You may call PSI at (877) 392-6422. Please note that you may also use the automated system, using a touch-tone phone, 24 hours a day in order to cancel and reschedule your appointment.

Note: A voice mail message is not an acceptable form of cancellation. Please use the internet, automated telephone system, or call PSI and speak to a Customer Service Representative.

MISSED APPOINTMENT OR LATE CANCELLATION

If you miss your appointment, you will not be able to take the examination as scheduled, further you will forfeit your examination fee, if:

- You do not cancel your appointment 2 days before the scheduled examination date;
- You do not appear for your examination appointment;
- You arrive after examination start time;
- You do not present proper identification when you arrive for the examination.

RE-EXAMINATION

Candidates who fail are eligible to re-take this examination. A Request for Re-examination form will be provided with the score report at the test center, or may be obtained by contacting the BBS.

To apply for re-examination, candidates must complete the form and submit it to the BBS with the correct fee. A notice confirming your eligibility for re-examination will be sent approximately 180 days from the date of the examination. Candidates are permitted to take the examination two times in a 12-month period.

CANDIDATES MUST PARTICIPATE IN THE EXAMINATION WITHIN ONE YEAR OF FAILING A PREVIOUS EXAMINATION.

EXAMINATION SITE CLOSING FOR AN EMERGENCY

In the event that severe weather or another emergency forces the closure of an examination site on a scheduled examination date, your examination will be rescheduled. PSI personnel will attempt to contact you in this situation. However, you may check the status of your examination schedule by calling (877) 392-6422. Every effort will be made to reschedule your examination at a convenient time as soon as possible. You will not be penalized. You will be rescheduled at no additional charge.

EXAMINATION SITE LOCATIONS

SPECIAL ACCOMMODATIONS AVAILABLE

All examination sites are physically accessible to individuals with disabilities. Scheduling services are also available via our Telecommunications Device for the Deaf (TDD) by calling 800.735.2929.

The Board and PSI recognize their responsibilities under the Federal Americans with Disabilities Act and the California Fair Employment and Housing Act by providing testing

accommodations or auxiliary aids or services for candidates who substantiate the need due to a physical or mental disability or qualified medical condition.

Accommodations will not be provided at the examination site unless prior approval by the BBS has been granted. Reasonable, appropriate, and effective accommodations may be requested by submitting a "Request for Accommodation" package. This package is available by contacting the Board or online at www.bbs.ca.gov/bbsforms.htm.

Requests for accommodation must be received a minimum of 90 days prior to the desired test date to allow for processing. Accommodations that fundamentally alter the measurement of the skills or knowledge the examinations are intended to test will not be granted.

Do not call PSI to schedule your examination until you have received written notification from the BBS regarding your request for accommodations.

REPORTING TO THE EXAMINATION SITE

On the day of the examination, you must arrive at least 30 minutes prior to your scheduled appointment time. This allows time for check-in and identification verification and provides time to familiarize yourself with the examination process. If you arrive late, you may not be admitted to the examination site and you may forfeit your examination registration fee. Even though candidates will be thumb printed, you are still required to comply with any identification requirements established by the appropriate regulatory entity.

REQUIRED IDENTIFICATION AT EXAMINATION SITE

You must provide one of the following valid forms of government-issued identification before you may examine:

- A photographic Driver's License (any state)
- State identification card (any state)
- U.S. military identification
- Valid passport - any country (valid foreign passport with valid record of arrival/departure - Form I-94 or processed for I-551 stamped in a valid foreign passport)

All photographs must be recognizable as the person to whom the identification card was issued. The name on the application must match the photographic I.D. card. If you have recently changed your name with the BBS, you may want to contact PSI to verify that they have the correct same name on file.

If you cannot provide the required identification, you must call (877) 392-6422 at least 3 weeks prior to your scheduled appointment to arrange a way to meet this security requirement. *Failure to provide all of the required identification at the time of the examination without notifying PSI is considered a missed appointment, and you will not be able to take the examination.*

CALIFORNIA LAW SECURITY PROCEDURES

Section 123 of the California Business and Professions Code states: It is a misdemeanor for any person to engage in any

conduct which subverts or attempts to subvert any licensing examination or the administration of an examination, including, but not limited to:

- Conduct which violates the security of the examination materials;
- Removing from the examination room any examination materials without authorization;
- The unauthorized reproduction by any means of any portion of the actual licensing examination;
- Aiding by any means the unauthorized reproduction of any portion of the licensing examination;
- Paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination;
- Obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination; or
- Selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination.
- Communicating with any other examinee during the administration of a licensing examination.
- Copying answers from another examinee or permitting one's answers to be copied by another examinee.
- Having in one's possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one's possession during the examination.
- Impersonating any examinee or having an impersonator take the licensing examination on one's behalf.

Nothing in this section shall preclude prosecution under authority provided for in any other provision of law. In addition to any other penalties, a person found guilty of violating this section, shall be liable for the actual damages sustained by the agency administering the examination not to exceed ten thousand dollars (\$10,000) and the costs of litigation.

IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION

1. All candidates will have their thumbprint taken during examination check-in and re-entry into the testing room after an approved absence. If a candidate passes the examination, the thumbprint record will be destroyed. If a candidate abandons his or her application for licensure, as determined by the appropriate regulatory authority, the thumbprint will also be destroyed. If a candidate is unsuccessful, the thumbprint record will be retained by PSI to ensure proper identification on any subsequent examination attempts. If the thumbprint doesn't match upon exit and re-entry, the candidate shall be disqualified from the examination, his or her test results invalidated, and the appropriate regulatory entity will be notified of the occurrence. The taking of the thumbprint is an additional measure to enhance examination security. The Department's Office of Examination Resources shall ensure that the appropriate safeguards for the storage and destruction of the thumbprint records are in place.
2. The temperature in the testing room is maintained at a moderate level. Candidates are advised to layer clothing.

Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets. These items must be worn upon check-in, while you wait to enter the testing room, and during your initial seating for the examination.

3. There are timing mechanisms available at the test site and on the computer console to help candidates keep track of time during the test administration. Watches or other timekeeping devices are not permitted in the examination rooms.
4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when you leave the room and when you return. If a candidate's restroom break takes longer than 5 (five) minutes, a proctor will check on the candidate and will notify the applicable regulatory entity of the occurrence, which will take appropriate action.
5. The following items are not permitted in the examination rooms:
 - Cellular telephones, personal digital assistants (PDAs), recording devices, cameras, pagers, purses, notebooks, notebook computers, reference or readings material, music players, radios, electronic games, calculators, or briefcases.
 - Personal items including watches, backpacks, wallets, pens, pencils, or other writing devices, food, drinks (unless prior approval is obtained by your regulatory entity) and good-luck items.
 - Hats, baseball caps, or visors (with the exception of religious apparel), coats, shawls, hooded clothing, heavy jackets or overcoats.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates shall return these items to their vehicle or other place of safekeeping. Neither PSI, nor the Department of Consumer Affairs, shall be responsible for the items. Any candidate possessing the prohibited items in the examination room shall have his or her test results invalidated, and PSI shall notify the appropriate regulatory entity of the occurrence.

6. Copying or communicating examination content is a violation of PSI security policy and existing law. Either one shall result in the disqualification or invalidation of examination results, the denial of your license, and may subject the candidate to criminal prosecution.

TAKING THE EXAMINATION BY COMPUTER

Taking the PSI examination by computer is simple. You do not need any computer experience or typing skills. You will use fewer keys than you use on a touch-tone telephone. All response keys are colored and have prominent characters. An illustration of the special keyboard is shown here.

IDENTIFICATION SCREEN

You will be directed to a semiprivate testing station to take the examination. When you are seated at the testing station, you will be prompted to confirm your name, identification number, and the examination for which you are registered.

TUTORIAL

Before you start your examination, an introductory tutorial to the computer and keyboard is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included as part of the tutorial so that you may practice using the keys, answering questions, and reviewing your answers.

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

EXAMINATION QUESTION EXAMPLE

During the examination, you should press 1, 2, 3, or 4 to select your answer. You should then press "ENTER" to record your answer and move on to the next question. A sample question display follows:

EXAMINATION RESULTS

At the end of your test, a pass or fail result will be shown on the screen and you will receive a printed score report. Numerical (raw) scores are provided to candidates who fail, but are not provided to candidates who pass. Your test results are confidential and are released only to you and your state licensing agency. To protect your privacy and to maintain the confidentiality of test results, score information is not given over the telephone.

FAILING SCORE REPORTS

The score report will indicate the candidate's overall score and grade, including the number of items answered correctly. It also reveals how the candidate performed on each major section of the test as defined by the LEP Examination Plan. The number correct in each content area is displayed. The primary purpose in providing a subscore for each part of the examination is to guide candidates in areas requiring additional preparation for re-testing.

ABANDONMENT OF APPLICATION/INELIGIBILITY

FIRST TIME EXAMINEES: In accordance with Title 16, California Code of Regulations Section 1806(c), An application shall be deemed abandoned if the applicant fails to sit for examination within one year after being notified of eligibility. To re-open an abandoned application the candidate must submit a new application, fee and all required documentation, as well as meet all current requirements in effect at the time the new application is submitted if that candidate wishes to pursue licensure.

RE-EXAMINATION APPLICANTS: Business and Professions Code Section 4989.22(b) states, "... An applicant who fails the written examination may, within one year from the notification date of failure, retake that examination as regularly scheduled without further application. Thereafter, the applicant shall not be eligible for further examination until he or she files a new application, meets all current requirements, and pays all fees required."

Persons failing to appear for re-examination, once having been scheduled, shall forfeit any re-examination fees paid.

AFTER PASSING THE EXAMINATION

Candidates are eligible to apply for licensure after passing the examination.

To apply, candidates must submit a Request for LEP Initial License Issuance form and the required fee to the BBS. Forms are provided with candidate result notices, or may be obtained by contacting the BBS. A Request for LEP Initial License Issuance form will be mailed to candidates with delayed score reports.

When your license number is issued it will be available on the BBS's Web site at www.bbs.ca.gov. Your license certificate will be mailed within 30 working days of issuance.

AMOUNT OF INITIAL LICENSE FEE

The amount of the initial LEP license fee will be prorated and established according to the month of issuance (month fee received by BBS) and expiration date of the license (candidate's birth month). Refer to the Fee Chart provided on the back of the Request for LEP Initial License Issuance form to determine the amount required to be submitted.

Example 1: If your birth month is *March* and the Board receives your Request for LEP Initial License Issuance in *April*, the fee required to be submitted with your request would be *\$80.00*. Your license would be valid for approximately 24 months.

Example 2: If your birth month is *April* and the Board receives your Request for Initial LEP License Issuance in *April*, the fee required to be submitted with your request would be *\$43.00*. Your license would be valid for approximately 13 months.

In accordance with Title 16, California Code of Regulations section 1806(f), An application shall be deemed abandoned if the applicant fails to pay the initial license fee within one (1) year after notification by the board of successful completion of examination requirements. An application submitted subsequent to the abandonment of a prior application shall be treated as a new application.

STUDY MATERIAL AND COURSES

The LEP Examination Plan contained in this handbook is the official standard for the material that will be covered in the examination. It is important for candidates to study the *Examination Items* section of this handbook and the examination plan. Should the examination plan or format change, ample notice will be provided, and updates will be posted on the Board's Web site at www.bbs.ca.gov.

Candidates are encouraged to trust in and use their education, experience and judgment as a basis for responding to the examination items. Examination preparation courses are not necessary for success in the examination and are not a substitute for education and experience. However, they may be useful for overcoming test anxiety or becoming familiar with the format of an examination.

Should you decide to use examination preparation course materials or workshops, we strongly encourage you to become an informed consumer prior to purchase and to consider the impact that incorrect information could have upon your examination performance.

The Board does not supply examination preparation providers with confidential examination material. Additionally, it is unlawful for candidates to provide information regarding examination content to anyone.

OBJECTIVE OF THE BOARD OF BEHAVIORAL SCIENCES (BBS)

State licensing boards are mandated to protect the public by developing licensing examinations that determine minimum competency for licensure. Licensure is mandated for those who provide independent professional services to the consumer.

In accordance with Business and Professions Code section 4989.20, each applicant for the LEP license who meets the educational and experience requirements must successfully complete the written examination in California prior to the issuance of a license.

Examinations administered by the BBS test candidates with regard to their knowledge and professional skills, as well as their ability to make judgments about appropriate techniques and methods, as applicable to the LEP scope of practice. This scope of practice is defined in Business and Professions Code section 4989.14 which states, "The practice of educational psychology is the performance of any of the following professional functions pertaining to academic learning processes or the educational system or both: (a) Educational evaluation. (b) Diagnosis of psychological disorders related to academic learning process. (c) Administration of diagnostic tests related to academic learning processes including tests of academic ability, learning patterns, achievement, motivation, and personality factors. (d) Interpretation of diagnostic tests related to academic learning processes including tests of academic ability, learning patterns, achievement, motivation, and personality factors. (e) Providing psychological counseling for individuals, groups, and families. (f) Consultation with other educators and parents on issues of social development and behavioral and academic difficulties. (g) Conducting psychoeducational assessments for the purposes of identifying special needs. (h) Developing treatment programs and strategies to address problems of adjustment. (i) Coordinating intervention strategies for management of individual crises."

LEP EXAMINATION PLAN

The development of an examination program begins with an occupational analysis, most recently completed for LEPs in 2009. An occupational analysis is a method for identifying the tasks performed in a profession or on a job and the knowledge, skills, and abilities required to perform that job.

The results of an occupational analysis form the basis of a licensing examination, demonstrating that an examination is job-related. The Department of Consumer Affairs' Examination Validation Policy requires an occupational analysis be performed every three to seven years. The 2009 LEP occupational analysis began with interviews of licensees to gather information about the tasks performed in practice and the knowledge required to perform those tasks. That information was reviewed and refined during workshops with licensees, then incorporated into a questionnaire. The questionnaire asked licensees to rate the importance of (for example) each task and knowledge area associated with their own practice.

The questionnaires were mailed to 1800 California-licensed LEPs. Several panels of LEPs reviewed the results of the

questionnaire. The panels then established the content of the new examination plan based on the task statements and knowledge areas determined critical to practice, forming a valid LEP examination plan.

The LEP written examination plan consists of the five content areas. In each content area, the examination plan describes examination content in terms of the task statements and knowledge areas resulting from the occupational analysis. It is important that candidates prepare for the examination by studying the examination plan.

EXAMINATION DEVELOPMENT

The LEP examination is developed and maintained by the Office of Examination Resources (OER), a division of the Department of Consumer Affairs. The OER staff consists of test validation and development specialists who are trained to develop and analyze occupational licensing examinations. California-licensed LEPs who participate in examination development and review workshops are referred to as "Subject Matter Experts" (SMEs). SMEs write and review multiple-choice items for the examination. SMEs are trained on established examination development processes and measurement methodologies by the OER. The cooperative efforts among these members of the LEP profession, the OER and the BBS are necessary to achieve both the measurement and content standards for examination construction.

ESTABLISHING THE PASSING STANDARDS

The LEP written examination measures knowledge and skills required for LEP practice, and represent a standard of performance that LEP SMEs agree is the minimum acceptable level for licensing in the profession.

To establish pass/fail standards for each version of the examination, a criterion-referenced passing score methodology is used. The intent of this methodology is to differentiate between a qualified and unqualified licensure candidate. The passing score is based on a minimum competence criterion that is defined in terms of the actual behaviors that qualified LEPs would perform if they possessed the knowledge necessary to perform job activities.

During a criterion-referenced passing score procedure, a panel of LEP SMEs also consider other factors that would contribute to minimum competence such as prerequisite qualifications (e.g., education, training and experience); the difficulty of the issues addressed in each multiple choice item; and public health and safety issues. By adopting a criterion-referenced passing score, the Board applies the same minimum competence standards to all licensure candidates. Because each version of the examination varies in difficulty, an important advantage of this methodology is that the passing score can be modified to reflect subtle differences in difficulty from one examination to another, providing safeguards to both the candidate and the consumer.

EXAMINATION ITEMS

The LEP examination contains no fewer than 100 multiple-choice items. The examination may contain additional items for the purpose of pre-testing (up to 25 non-scoreable items). Pre-testing allows performance data to be gathered and evaluated before items become scoreable in an examination. These pre-test ("experimental") items, distributed throughout the examination, WILL NOT be counted for or against you in your score, and will not be identified to you. You will have 2 ½ hours to complete this examination.

All of the scoreable items in the examination have been written and reviewed by LEPs, are based on the job-related task and knowledge statements contained in the examination plan, are written at a level that requires candidates to apply integrated education and experience, are supported by reference textbooks, and have been pre-tested to ensure statistical performance standards are met.

There is only one correct answer for each item. The 'incorrect' answers are typically common errors and misconceptions, true but not relevant statements, or incorrect statements. There are no 'trick' questions in the examination.

EXAMPLE EXAMINATION ITEMS

To follow are examples of the format and structure of items you may encounter during the examination. Each multiple-choice item requires the candidate to select the correct answer from among the four options provided.

1. What test should be used to obtain a standard score of the intellectual functioning of an 8-year-old who is unable to talk and has limited hand movements?
 - A. Raven's Progressive Matrices
 - B. Leiter International Performance Scale
 - C. Kaufman Assessment Battery for Children
 - D. McCarthy Scales of Children's Abilities
2. Why should parents be given detailed feedback following the completion of a psychological assessment of their child?
 - A. To provide the rationale for a special education placement decision.
 - B. To encourage parents to take a more active role in their child's education in the future.
 - C. To explain how social and emotional functioning is related to academic achievement.
 - D. To maximize intervention success through increasing participation with recommendations.
3. A right-handed 14-year-old student with a seizure disorder and no other health problems recently had a neuropsychological evaluation. The student's school asked an LEP to review the evaluation report and help them utilize the information. The report indicates impaired right-hand performance. An IQ test was not administered; however, all other evaluation results were within normal limits. What academic implications are inferred by these results?
 - A. The student has impaired language functioning and will primarily require extensive academic assistance with reading, spelling, writing, and note-taking.

- B. The student has impaired visual-spatial functioning and will primarily require extensive academic assistance with reading, spelling, writing, and note-taking.
 - C. The student has impaired language functioning, and will primarily require extensive academic assistance with math, nonverbal communication, science, and note-taking.
 - D. The student has impaired visual-spatial functioning and will primarily require extensive academic assistance with math, nonverbal communication, science, and note-taking.
4. Which of the following treatments are recommended for managing Attention-Deficit/Hyperactivity Disorder?
- A. EEG biofeedback, sensory integration training, and parent counseling
 - B. EEG biofeedback, sensory integration training, and removal of sugar and food additives
 - C. Behavior management methods, stimulant medication, and parent counseling
 - D. Behavior management methods, stimulant medication, and removal of sugar and food additives

Correct Answers: 1-A, 2-D, 3-A, 4-C

LEP WRITTEN EXAMINATION PLAN

The following pages contain detailed information regarding examination content. A definition of each content area and the associated task and knowledge statements are provided. It is important for candidates to use this section as a study guide, because each item in the examination is linked to this content. To help ensure success on the examination, candidates are also encouraged to use this section as a checklist by considering their own strengths and weaknesses in each area.

I. Assessment (32%) - This area assesses the candidate's ability to evaluate clients' cognition, processing, academic achievement, personality, behavior, and social-emotional status to determine level of educational functioning through standardized test administration as well as other formal and informal assessment procedures.

Subarea	Job Task	Associated Knowledges
A. Intake (6%)	Assess history by reviewing client's records (e.g. medical, school, developmental, psychological) to assist in the development of a service delivery plan.	K14. Knowledge of developmental milestones of normal cognitive development. K25. Knowledge of medical conditions that affect learning and behavior. K33. Knowledge of developmental ranges of the life span. K45. Knowledge of the effect of genetically-based developmental disorders.
	Conduct intake interviews with client, parents, and others to identify concerns related to educational needs and diagnosis(es).	K20. Knowledge of techniques used to elicit information regarding client's history. K31. Knowledge of the effect of family dynamics on client learning and behavior. K34. Knowledge of techniques used to elicit mental health information from client. K53. Knowledge of techniques used to elicit physical health information from client.
	Gather information about client's level of functioning from client, parents, and others through interviews, observations, and questionnaires.	K23. Knowledge of observational techniques to gather information to assist in formulating assessment plans and to measure progress. K26. Knowledge of techniques used to elicit information identifying client concerns. K34. Knowledge of techniques used to elicit mental health information from client. K53. Knowledge of techniques used to elicit physical health information from client.
B. Assessment Plan Development (9%)	Assess language, learning, behavior problems, or medical conditions to determine the need for administration of assessment instruments.	K4. Knowledge of learning differences that require assessment. K5. Knowledge of deficits in language and communication development that require assessment. K12. Knowledge of behavior problems that require assessment. K14. Knowledge of developmental milestones of normal cognitive development. K25. Knowledge of medical conditions that affect learning and behavior.
	Select assessment instruments for client, based on presenting problem(s) and intake information.	K1. Knowledge of the purposes of different assessment instruments of cognitive functioning. K8. Knowledge of the purposes of different assessment instruments of personality factors/behavioral traits. K9. Knowledge of the purposes of different assessment instruments of academic functioning. K11. Knowledge of the purposes of different assessment instruments of social/emotional functioning. K19. Knowledge of the purposes of different assessment instruments of adaptive functioning. K36. Knowledge of methods to assess fine and gross motor skills.

	Develop hypothesis(es) regarding client's presenting problem(s) in order to formulate an assessment plan.	K28. Knowledge of the effect of neurological factors that impact learning and behavior. K29. Knowledge of the effect of physiological conditions on learning and behavior. K30. Knowledge of the effect of childhood diseases on learning and behavior. K33. Knowledge of developmental ranges of the life span. K38. Knowledge of the effect of substance abuse on learning and behavior. K41. Knowledge of the effect of prenatal substance exposure on subsequent cognitive development. K42. Knowledge of the effect of adolescent/adult diseases on learning and behavior. K45. Knowledge of the effect of genetically-based developmental disorders. K46. Knowledge of the effect of prenatal/perinatal conditions in neurological development.
	Develop a psychoeducational battery to accommodate clients with disabilities to obtain reliable and valid results.	K18. Knowledge of principles of psychometrics pertaining to reliability and validity of assessment instruments. K22. Knowledge of principles of statistics pertaining to interpreting assessment instrument results. K44. Knowledge of the effects of existing disabilities on assessment process.
	Select methods to evaluate diverse client populations to provide an unbiased assessment.	K18. Knowledge of principles of psychometrics pertaining to reliability and validity of assessment instruments. K22. Knowledge of principles of statistics pertaining to interpreting assessment instrument results. K43. Knowledge of the effect of human diversity factors on assessment process.
C. Assessment Process (13%)	Assess cognitive ability, academic achievement, and learning patterns by administering assessment instruments to determine level of functioning.	K1. Knowledge of the purposes of different assessment instruments of cognitive functioning. K2. Knowledge of methods to assess cognitive functioning. K3. Knowledge of methods to assess learning patterns. K9. Knowledge of the purposes of different assessment instruments of academic functioning. K10. Knowledge of the methods to assess academic functioning.
	Assess adaptive, social/emotional, behavior and personality factors by administering assessment instruments to determine level of functioning.	K7. Knowledge of methods to assess social/emotional functioning. K8. Knowledge of the purposes of different assessment instruments of personality factors/behavioral traits. K11. Knowledge of the purposes of different assessment instruments of social/emotional functioning. K16. Knowledge of methods to assess behavioral functioning. K27. Knowledge of methods to assess adaptive functioning. K49. Knowledge of purposes of different assessment instruments of personality functioning. K55. Knowledge of personality theory pertaining to formulating intervention.
	Assess levels of development by administering assessment instruments to determine range of functioning.	K2. Knowledge of methods to assess cognitive functioning. K12. Knowledge of behavior problems that require assessment. K14. Knowledge of developmental milestones of normal cognitive development. K15. Knowledge of the methods to assess development. K19. Knowledge of the purposes of different assessment instruments of adaptive functioning. K27. Knowledge of methods to assess adaptive functioning. K33. Knowledge of developmental ranges of the life span.
	Assess client's social interaction across settings (e.g. home, school, community, work place) to formulate an intervention plan.	K6. Knowledge of methods to assess language and communication development. K7. Knowledge of methods to assess social/emotional functioning. K11. Knowledge of the purposes of different assessment instruments of social/emotional functioning. K16. Knowledge of methods to assess behavioral functioning.

	Assess client's ability to communicate across settings (e.g. home, school, community, work place) to formulate an intervention plan.	K5. Knowledge of deficits in language and communication development that require assessment. K6. Knowledge of methods to assess language and communication development.
	Assess client's motor skills and coordination to determine level of functioning for educational/vocational planning.	K35. Knowledge of the effect of motor coordination on educational performance. K36. Knowledge of methods to assess fine and gross motor skills. K39. Knowledge of the relationship of neurological development and motor ability. K40. Knowledge of common sensory and motoric disorders of infancy/childhood. K48. Knowledge of common sensory and motoric disorders of adolescent/adults.
	Assess sensory integration to determine impact on educational/vocational planning.	K37. Knowledge of methods to assess sensory integration/physiological conditions. K40. Knowledge of common sensory and motoric disorders of infancy/childhood. K48. Knowledge of common sensory and motoric disorders of adolescent/adults.
	Assess intellectual giftedness to determine impact on educational planning.	K1. Knowledge of the purposes of different assessment instruments of cognitive functioning. K2. Knowledge of methods to assess cognitive functioning. K4. Knowledge of learning differences that require assessment.
	Assess client with brain injury or neurological disorders to evaluate level of functioning.	K21. Knowledge of disorders that have a physiological basis for learning and behavior. K25. Knowledge of medical conditions that affect learning and behavior. K28. Knowledge of the effect of neurological factors that impact learning and behavior. K29. Knowledge of the effect of physiological conditions on learning and behavior. K45. Knowledge of the effect of genetically-based developmental disorders. K46. Knowledge of the effect of prenatal/perinatal conditions in neurological development.
	Conduct a functional behavior assessment (FBA) to identify factors relating to client behavior and develop an intervention plan.	K8. Knowledge of the purposes of different assessment instruments of personality factors/behavioral traits. K16. Knowledge of methods to assess behavioral functioning.
D. Interpretation and Diagnosis (4%)	Interpret results of assessment instruments to assist in identifying impairments that affect learning and behavior.	K17. Knowledge of the effect of assessment instrument results on intervention planning. K24. Knowledge of the effect of testing conditions (e.g. noise, sobriety, rapport) that invalidate assessment instrument results. K13. Knowledge of the principles of norms for interpretation of assessment instrument results.
	Diagnose disorders that affect client's learning, behavior, and performance across settings (e.g. home, school, community, work place).	K32. Knowledge of methods used to classify client behaviors into diagnostic categories. K47. Knowledge of taxonomic classification pertaining to learning and behavior in the Diagnostic and Statistical Manual.

II. Communication of Results (14%) - This area assesses the candidate's ability to formulate and communicate assessment results to parents, educators, and others as well as to link evidence-based research to recommendations and their implications.

Subarea	Job Task	Associated Knowledges
A. Presenting Results (4%)	Develop a report that communicates the client's assessment results to varied audiences.	K58. Knowledge of methods used to consolidate assessment information into a report. K59. Knowledge of techniques used to explain test results and make further recommendations. K64. Knowledge of how diversity affects the communication of assessment results in the home, school, community and work place. K67. Knowledge of methods used to inform others about cognitive processing and the effects on learning and behavior. K69. Knowledge of methods used to apply research findings in developing assessment reports.

	Communicate with parents, educators, and others to present client's assessment results and conclusions.	<p>K59. Knowledge of techniques used to explain test results and make further recommendations.</p> <p>K63. Knowledge of techniques used to communicate implications of assessment results on the home environment.</p> <p>K64. Knowledge of how diversity affects the communication of assessment results in the home, school, community and work place.</p> <p>K65. Knowledge of methods to explain treatment plans to family members.</p> <p>K66. Knowledge of methods used to inform others about medical conditions and the effects on learning and behavior.</p> <p>K67. Knowledge of methods used to inform others about cognitive processing and the effects on learning and behavior.</p> <p>K68. Knowledge of methods used to communicate techniques for the remediation of learning and behavior problems.</p>
B. Recommendations and implications (10%)	Communicate with parents, educators, and others to provide recommendations based on client's assessment results.	<p>K59. Knowledge of techniques used to explain test results and make further recommendations.</p> <p>K60. Knowledge of program and service options within the educational system.</p> <p>K61. Knowledge of program and service options within the community.</p> <p>K64. Knowledge of how diversity affects the communication of assessment results in the home, school, community and work place.</p> <p>K65. Knowledge of methods to explain treatment plans to family members.</p> <p>K66. Knowledge of methods used to inform others about medical conditions and the effects on learning and behavior.</p> <p>K68. Knowledge of methods used to communicate techniques for the remediation of learning and behavior problems.</p>
	Communicate with parents, educators, and others to address implications of client's assessment results across settings (e.g. home, school, community, work place).	<p>K63. Knowledge of techniques used to communicate implications of assessment results on the home environment.</p> <p>K64. Knowledge of how diversity affects the communication of assessment results in the home, school, community and work place.</p> <p>K65. Knowledge of methods to explain treatment plans to family members.</p> <p>K66. Knowledge of methods used to inform others about medical conditions and the effects on learning and behavior.</p> <p>K68. Knowledge of methods used to communicate techniques for the remediation of learning and behavior problems.</p>
	Communicate with parents, educators, and others to explain the effects of cognitive processes on learning and behavior across settings (e.g. home, school, community, work place).	<p>K60. Knowledge of program and service options within the educational system.</p> <p>K61. Knowledge of program and service options within the community.</p> <p>K67. Knowledge of methods used to inform others about cognitive processing and the effects on learning and behavior.</p>
	Communicate with parents, educators, and others to explain the effects of medical conditions on learning and behavior across settings (e.g. home, school, community, work place).	<p>K60. Knowledge of program and service options within the educational system.</p> <p>K61. Knowledge of program and service options within the community.</p> <p>K66. Knowledge of methods used to inform others about medical conditions and the effects on learning and behavior.</p>
	Communicate with parents, educators, and others to explain the implication(s) of client's performance across settings (e.g. home, school, community, work place).	<p>K59. Knowledge of techniques used to explain test results and make further recommendations.</p> <p>K63. Knowledge of techniques used to communicate implications of assessment results on the home environment.</p> <p>K67. Knowledge of methods used to inform others about cognitive processing and the effects on learning and behavior.</p>
	Apply current research to assessment interpretation and recommendations.	<p>K69. Knowledge of methods used to apply research findings in developing assessment reports.</p> <p>K70. Knowledge of methods used to evaluate research.</p>

III. Intervention (15%) - This area assesses the candidate's ability to facilitate and monitor interventions to improve clients' development as related to educational functioning.

Subarea	Job Task	Associated Knowledges
A. Strategy Development (3%)	Develop strategies to facilitate client's learning, social, and emotional development.	K56. Knowledge of strategies used to reduce stigma associated with emotional and behavioral disorder. K57. Knowledge of strategies used to reduce discrimination against individuals with emotional and behavioral problems. K74. Knowledge of the effect of learning styles of individuals in developing remedial programs. K75. Knowledge of behavioral interventions to enable client to function across settings. K77. Knowledge of therapeutic interventions for improving emotional adjustment. K79. Knowledge of therapeutic interventions for developing social skills.
	Apply results from assessments to develop intervention strategies that address client's emotional, learning, or behavior problems.	K72. Knowledge of approaches to remediate learning and behavior problems. K74. Knowledge of the effect of learning styles of individuals in developing remedial programs. K75. Knowledge of behavioral interventions to enable client to function across settings. K77. Knowledge of therapeutic interventions for improving emotional adjustment. K79. Knowledge of therapeutic interventions for developing social skills. K80. Knowledge of the counseling process to resolve learning and behavior problems.
B. Teaching (5%)	Provide recommendations to client, educators, and employers to facilitate client effectiveness in educational, employment, and community settings.	K75. Knowledge of behavioral interventions to enable client to function across settings. K84. Knowledge of techniques used to elicit family members or others in educational planning and intervention. K93. Knowledge of how socioeconomic status affects the implementation of assessment results in the home, school, community, and work place.
	Teach parents, educators, employers, and others how to apply interventions to modify client's behavior.	K72. Knowledge of approaches to remediate learning and behavior problems. K73. Knowledge of therapeutic interventions for improving attention skills. K75. Knowledge of behavioral interventions to enable client to function across settings. K83. Knowledge of techniques used to assess when to include family members or others in counseling sessions. K115. Knowledge of the impact of differences in parent or caregiver techniques on client functioning.
	Teach parents, educators, employers, and others how to apply mental health promotion interventions.	K84. Knowledge of techniques used to elicit family members or others in educational planning and intervention. K105. Knowledge of evidence-based practices to apply as therapeutic interventions.
	Teach parents, educators, employers, and others how to apply mental disorder prevention strategies.	K93. Knowledge of how socioeconomic status affects the implementation of assessment results in the home, school, community, and work place. K106.
