Subject: Discussion of Temporary Practice Allowance

The Board of Behavioral Sciences (Board) law requires a therapist to hold a valid and current California license or registration if the individual is engaging in therapy via telehealth with a client who is physically located in California (California Code of Regulations Title 16, §1815.5(a)). There are currently no exceptions to this.

As was discussed at a previous Telehealth Committee meeting, many states have a similar requirement, though some states allow for flexibility so that clients who are travelling or who are transitioning to living in a new state may obtain temporary services for continuity of care purposes from an out-of-state licensee.

Attachment B contains a comparison chart summarizing the temporary practice allowances for several other jurisdictions. **Attachments C** through **J** show the text of the law for those jurisdictions.

Board staff examined the features of these laws, and drafted potential language for California based on this. The draft language is shown in **Attachment A**.

Some features to note regarding this proposal are as follows:

1. It only permits one temporary practice allowance per year. If a second temporary practice allowance is needed, staff suggests that the person should utilize the Board's license portability pathway to licensure.
2. The applicant for temporary practice would self-attest to meeting the qualifications online. The person would provide the date they are to begin the temporary practice, and the Breeze system would generate a receipt which would contain the expiration date of their temporary practice allowance.
3. The current proposal only allows the temporary practice allowance for out-of-state licensees, not registrants.
4. The current proposal only addresses temporary practice for individuals with an equivalent license in another state at the highest level of independent clinical

practice. It does not address temporary practice for mental health license holders in another state whose license is not equivalent to one that the Board issues.

Previous Committee Discussion

The Telehealth Committee discussed this issue and the proposed language at its June 3, 2022 meeting. The Committee directed staff to bring the proposed language to the Policy and Advocacy Committee for consideration as a legislative proposal.

The Policy and Advocacy Committee discussed this topic at its July 29, 2022 meeting. At that meeting, two main concerns were expressed. First, there were concerns that the way the proposal was drafted having out-of-state licensees self-attest could lead to abuse. The second concern was that telehealth platforms could potentially exploit the system.

Based on that discussion, staff fine-tuned the proposal, which was discussed again at the Committee's October 14, 2022 meeting. The following safeguards were added to address the previous concerns:

- A sunset date was added to the proposal, so the Board can determine how it is working (a sunset date of January 1, 2026 was chosen to align with the Board's next sunset review.)
- A requirement was added for the out-of-state licensee to provide the Board with their social security number or individual taxpayer identification number. Providing this information will allow Board staff to more easily track whether or not someone is abusing the system by requesting multiple practice allowances per year. *(Note: at the Policy and Advocacy Committee meeting, the approved proposal also included a requirement that the out-of-state licensee provide their current government-issued photo I.D. However, upon further discussion, staff has determined that this will be difficult to upload if the application is submitted online. The social security/taxpayer I.D. should be sufficient to verify the applicant's identity. Therefore, the photo I.D. requirement has been deleted.)*
- As part of the fiscal impact for this bill, staff will ask for 1 full-time Office Technician position in order to monitor the applicants requesting the allowances, contact any suspicious entries, and send any issues to enforcement. The Office Technician could also be available to answer licensee questions about the practice allowance.
- A requirement was added that the temporarily practicing licensee must provide their client with the Board's internet website address.
- The proposed temporary practice allowance was reduced 60 to 30 consecutive days per calendar year.

At the October 14th meeting the Policy and Advocacy Committee directed staff to make its discussed amendments, and to bring the draft language to the Board for consideration as a legislative proposal.

Recommendation

Conduct an open discussion of the requirements of other jurisdictions as well as the language proposed for California shown in **Attachment A**. Direct staff to make any discussed changes, and any non-substantive changes, to the language proposed in **Attachment A**, and to pursue as a legislative proposal.
